INSTRUCTIONS

READ CAREFULLY AND COMPLY FULLY

For the purpose of this determination attach hereto a neat, accurate plat, map or sketch of this lease, section, block or lot locating thereon the proposed site for this location. Plat shall be drawn to a scale which will permit the facile observation of all pertinent data. Show distances of the proposed well from the two nearest lease and section lines, and from the nearest wells on the same lease completed in or drilling to the same reservoir. If the location requested is not in conformance with the applicable well-spacing rules, show all off-setting wells to the proposed well, and the names and addresses of all adjoining lease or property owners.

In event plat is filed for the purpose of designating the drilling and producing unit, or proration unit, on which the proposed well is to be drilled, the boundaries of such unit shall be shown, also the boundaries of all other such units attributed to other wells on the same lease completed in or drilling to the same reservoir. The acreage contained within each unit shall also be shown.

Do not confuse survey lines with lease lines. The sketch or plat should show your entire lease if possible. If it is not practical to show the entire lease and the plat shows only a section, block or lot out of your lease, you should clearly show that same is only a part of the lease.

Designate scale to which plat or sketch is drawn. Also designate northerly direction on the sketch or plat.

Attention: Mr. J.N. Edwards, Secretary

Re: U.S. Fidelity & Guaranty Company Bond 27716 13 3746 60

Gentlemen:

As you are aware, the captioned bond in the amount of $10,000 is on file with this Commission to cover bonding requirements of this Commission.

As a result of the public hearing held September 22, 1965 in Phoenix, Arizona, concerning the Rules and Regulations of this Commission, the bonding requirements have been increased to $5,000 for a single well and to $25,000 for a state-wide blanket bond.

As required by law, certified copy of the new Rules and Regulations was filed with the Secretary of State on October 1, 1965, and consequently the new Rules became effective on that date.

This letter is to request that at your earliest convenience you take the necessary steps to increase your state-wide bond to $25,000. Upon receipt of your new bond your old bond of course may be released.

Your earliest cooperation will be appreciated.

Dear Mr. Edwards:

In reviewing our files we find that we are without numerous and various forms necessary to complete our files in some cases, and in others the required forms are necessary that we may keep our files current with the operations of your wells. I am enclosing a substantial number of the required forms together with a guide so that you may fill out the proper information with the wells concerned. Inasmuch as we are trying to keep current your early cooperation will be appreciated.

If there is any assistance that we may give, please advise.

Very truly yours,

Phoenix, Arizona

Dear John:

A cloudy day in Tucson - perhaps we will get some rain for a change.

One of my workers threw out the box that gave the location for Eastern Petroleum #31 Santa Fe well. We have the samples but I was not able to find this particular well listed in the Arizona Oil Report so as to get a location that way. We also have a conflict with the location of Eastern hole #37. The AOR says 1650 FEL and the box says 1650 FWL. Can you resolve these two location difficulties for us?

Thanks for your help, John.

Yours very truly,

Wee
