OIL AND GAS CONSERVATION COMMISSION  
PHOENIX, ARIZONA

Form O&G 56

Form Prescribed Under Oil and Gas Conservation Act of 1951  
ABANDONMENT AND PLUGGING RECORD

(Within thirty days after the plugging of any well has been accomplished, the owner or operator thereof shall file this form with the Commission, setting forth in detail the method used in plugging the well.)

PLUGGING METHODS AND PROCEDURE -- The methods and procedure for plugging a well shall be as follows: (a) The bottom of the hole shall be filled to, or a bridge shall be placed at, the top of each producing formation open to the well bore, and in either event a cement plug not less than fifty (50) feet in length shall be placed immediately above each producing formation open to the well bore whenever possible.

(b) A cement plug not less than fifty (50) feet in length shall be placed at approximately fifty (50) feet below all fresh-water-bearing strata.

(c) A plug shall be placed at or near the surface of the ground in each hole.

(d) The interval between plugs shall be filled with heavy-mud-laden fluid.

(e) An uncased hole shall be plugged with heavy mud up to the base of the surface string, at which point a plug of not less than fifty (50) feet of cement shall be placed.

Operator Lloyd Duncan Field Willcox, Cochise County Ariz.

Gentlemen:

Would you please furnish us with what geologic and completion information you might have available on the Lloyd Duncan #3 State well located in Section 33 of Township 13 South, Range 22 East, Cochise County, Arizona.

According to our information the well reached approximately 2100 feet and was finally completed as a water well.

Thank you in advance for your kind cooperation.

Yours very truly,

R. E. Boone  
District Landman

Per Phil Johnson 3/5/59

Phil talked to Mr. Duncan 3/4/59 and obtained the following information:

Were drilling at 650'

Proposed depth: 2200'

Cable tool rig

Jess Case is the driller. He also will be the driller for Bomak oil Company. Also a Mr. Spaugh is connected with this operation.

Ran 350' of 13' hole and reduced to 11' and according to driller planning to set 350' of 12" surface casing. Then carry hole down with smaller size.

Mr. Lloyd Duncan  
Valley National Bank Bldg.  
Willcox, Arizona

Dear Mr. Duncan:

We have received your letter of March 4 which was given to me for response. There is one thing in the letter which pertains to the hole that has been drilled that you propose to turn over to Mr. Fred Gunterman, rancher, as a water well. If Mr. Gunterman is interested in using this well, it will be necessary for him to assume the same responsibility in connection with the water well as you are required to assume in connection with the oil and gas well with regard to plugging and sealing off the stratas of fresh water so that the fresh water will not be contaminated by any salt water or other mineral. In any event, if Mr. Gunterman does not care to use the well you will be expected to report the abandonment and plugging of said well.

It is hoped that you will be successful in your new drilling operations.

Yours very truly,

Friday Morning March Fourth Nineteen Hundred Fifty Five At Ten,

Mr. Roger Ernst                      State Land Commissioner  
Capitol Annex  
Phoenix, Arizona

Dear Mr. Ernst:

I certainly want to thank you for your kindness to me on my visit to your office monday of this week.

Mr. Phillip Johnson ( Your Geologist) was at our well location with me on Wednesday March 2, and helped me measure the distance between the old hole and present location, We moved 75 Ft. south east, and would like for the former permit and bond to serve on the new well.

We used a crew of twenty men in moving the rig and are drilling at 186 Ft. this morning, hope to cement 350 Ft. of surface casing by sundown tomorrow night. Halliburton Oil Well Cementing Co. will have their equipment here to run the cement.

We gave Phil Johnson one of the new U.S.G.S. Reports And I believe he has changed his mind about our possibilities.

We have agreed to give the old hole to Mr. Fred Gunterman, (Rancher) For a water well, in case he should not want it we will plug it as to your specifications.

Thanking You,

Again,

Sincerely.
