Mr. Lloyd Duncan
Valley National Bank Bldg.
Willcox, Arizona

Dear Mr. Duncan:

After leaving you on the morning of the 18th I saw Mr. Waddell in the field and was unable to clear up a confusion that we have here in regard to the three wells that you and Mr. Waddell have been associated with in the Willcox area. For the sake of keeping the records straight I would certainly appreciate your correcting the facts such as we have now.

In our files we have three wells listed. First, the Clayton Duncan well located 1400' South 90' West of the Northeast corner, Section 29, T. 13 S., R. 22 E., elevation 4953. Our records indicate that this well reached granite at 1175 feet and was drilled to a total depth of 1180 feet. The second well is listed as the Duncan Brothers well and was located, according to our files, in Section 27, R. 13 S., R. 22 E. We have no other information on this well and would appreciate any further facts that you are able to give. Particularly, we would like to have a log of the well. The well now being drilled is located, according to our files, 330' South 330' East of the Northwest corner of the Southwest Quarter of the Southeast Quarter of Section 23, T. 13 S., R. 24 E. Please check us on this, and also we would like to have the elevation of the well.

Hoping that you and Mrs. Duncan had an extremely pleasant Christmas and that the well will go down successfully after the first of the year, I am

Sincerely yours,

L. A. HEINDL
Geologist

Dear Mr. Coleman:

Am enclosing the log on well you requested,
The other well log was sent in with final report on well no 1. at the time
permit was filed for well no. 2 .

Thanking you kindly, for your cooperation.

Sincerely,

Lloyd Duncan
