INSTRUCTIONS

READ CAREFULLY AND COMPLY FULLY

For the purpose of this determination attach hereto a neat, accurate plat, map or sketch of this lease, section, block or lot locating thereon the proposed site for this location. Plat shall be drawn to a scale which will permit the facile observation of all pertinent data. Show distances of the proposed well from the two nearest lease and section lines, and from the nearest wells on the same lease completed in or drilling to the same reservoir. If the location requested is not in conformance with the applicable well-spacing rules, show all off-setting wells to the proposed well, and the names and addresses of all adjoining lease or property owners.

In event plat is filed for the purpose of designating the drilling and producing unit, or proration unit, on which the proposed well is to be drilled, the boundaries of such unit shall be shown, also the boundaries of all other such units attributed to other wells on the same lease completed in or drilling to the same reservoir. The acreage contained within each unit shall also be shown.

Do not confuse survey lines with lease lines. The sketch or plat should show your entire lease if possible. If it is not practical to show the entire lease and the plat shows only a section, block or lot out of your lease, you should clearly show that same is only a part of the lease.

Designate scale to which plat or sketch is drawn. Also designate northerly direction on the sketch or plat.

General Insurance Company of America Bond 526426

Gentlemen:

In reply to your letter of December 15, 1964 please be advised that General Insurance Company of America's bond 467846 in the amount of \$10,000 may herewith and hereby be cancelled.

General Insurance Company of America's bond 526426 is hereby accepted as replacement bond covering captioned well only.

Inasmuch as only one copy of the bond was forwarded to this office we will not supply you with an approved copy.

Yours very truly,

John Barthelew

Re: Termination of Blanket
Bond 467846

Gentlemen:

In line with your letter of December 2, 1964, we are enclosing a \$2,500 bond to satisfy the bond requirement for our New Mexico and Arizona Land Company C #1 well located in SW 1/4 of Section 27, Township 18 North, Range 23 East, Navajo County, Arizona, which is now shut in.

If the new bond meets with your approval, please terminate the \$10,000 blanket bond and furnish us notice of its termination for General Insurance Company of America.

It is my understanding that Grant H. Smith, our geologist, has written you concerning other information requested in your letter of December 2, 1964.

We appreciate your prompt attention to this matter.

Yours sincerely,

FRANKLIN, ASTON & FAIR, INC.

Re: General Insurance Blanket
Bond 467846

Dear Mr. Bannister:

Your letter of December 2 to Mr. Tom P. Stephens of our company has been referred to me regarding your request for information on the Franklin, Aston & Fair, Inc. New Mexico-Arizona Land Company C #1 and C #2, Section 27, Township 18 North, Range 23 East, and the Bernstein #1, Section 36, Township 18 North, Range 23 East.

The New Mexico-Arizona Land Company C #1 1980 FNL, 1650 FEL, Section 27, T-18N, R-23E, spudded May 28, 1963 reached TD May 29. Copies of the Gamma Ray-Neutron log were forwarded to your office. An attempt to complete was made on June 20, 1963 but the frac treatment damaged the formation and the load was not recovered. The well still continues to produce helium but in a much smaller volume than before treatment. The well was shut in. Attached are the forms No. P-7 for this well.

Our records show that the application to plug and abandon the C #2 well was approved August 13, 1964. There were no logs run in this well but a set of samples was collected and at the request of John Petty were left at the Highway House motel in Holbrook where he planned to pick them up.

The Bernstein State #1, Sec. 36, T-18N, R-23E, was dry and abandoned at 215 feet. Form No. P-7, Well Completion or Recompletion Report and Well Log was approved December 18, 1963 by Mr. John Petty. We did not log this dry hole but a complete set of samples was collected for the State Oil & Gas Conservation Commission as requested by Mr. Petty. The plugging record was approved November 27, 1963. If these records have been lost, we would be happy to supply you with Photostat copies from our files.

Yours very truly,

FRANKLIN, ASTON & FAIR, INC.

Re: General Insurance Blanket Bond 467846

Mexico and Arizona Land Co. well C-#1
SW/4NE/4, S27-T18N-R23E, Navajo County, Arizona
Our file 235

Gentlemen:

We are in receipt of your letter of November 03, 1964, requesting permission to cancel the captioned bond covering all of your wells in the State of Arizona.

The captioned well is currently a shut-in helium well and must at all times be under bond.

This letter will evidence authority that the captioned blanket bond in the amount of \$10,000 may be cancelled and replaced by a \$2,500 bond to cover the captioned well only. The blanket bond shall not be cancelled until such time as the \$2,500 bond has been placed in effect and a copy filed with this Commission.

In reviewing our files we further note that no logs or other pertinent data have been filed for the captioned well or for the Franklin, Aston & Fair State #1 well located in the SW/4SE/4, S36-T18N-R23E, and the FacC-#2 well located in the SW/4NE/4, S27-T18N-R23E.

Will you please furnish this office as soon as possible copies of such logs and other information not yet filed with the Commission.

If we may be of further help, will you please advise.

Yours very truly,

Executive Secretary

Dear Mr. Smith:

Your Franklin Aston & Fair #1-A New Mexico and Arizona Land Company in N/2 Section 1-T18N-R23E has been released as to bonding requirements on your blanket bond, but not on your other wells. We emphasize that this well only is released from bond.

We need completion forms on the following:

Franklin Aston & Fair #A-2, Section 35-T18N-R23E
~~Franklin Aston & Fair #1 Bernstein State, Section 36-T18N-R23E~~
Franklin Aston & Fair #B1 New Mexico and Arizona Land Company
Fee, Section 22-T17N-R23E.

We don't have plugging or completion forms on the following:

Franklin, Aston & Fair #C-1 New Mexico and Arizona Land Company
Fee, Section 27-T18N-R23E.
Franklin, Aston & Fair #C-2 New Mexico and Arizona Land Company
Fee, Section 27-T18N-R23E.

Please reply when you send the completion forms, etc. on the above and state which ones of the wells in 27 you want to leave open and what your plans are regarding future work on them.

Very truly yours,

John

Mr. John Petty
State of Arizona Oil and Gas
Conservation Commission
1624 West Adams
Phoenix 7, Arizona

Dear John:

Enclosed is the Plugging Record for the Franklin, Aston & Fair, Inc.
Bernstein No. 1 well, located 1650' FSL and 1650' FEL of Section 36,
Township 18 North, Range 23 East, Navajo County, Arizona.

Also included are the Plugging Records for the Franklin, Aston & Fair,
Inc. New Mexico and Arizona Land Company B #1, located 1650' FNL and
1650' FEL of Section 22, Township 17 North, Range 22 East, Navajo County,
Arizona, and the Franklin, Aston & Fair, Inc. New Mexico and Arizona
Land Company A #2, located 1650' FNL and 1980' FEL of Section 35, Town-
ship 18 North, Range 23 East, Navajo County, Arizona.

Application to Plug and Abandon these wells had been formerly approved
by you and due to an oversight on our part, the Plugging Records were
not forwarded. I assumed that the Applications to Plug and Abandon with
your signature of approval were all that were necessary.

Tom has asked me to remind you concerning your conversation with him
regarding our drilling bond last week.

With best regards, I am,

Yours sincerely,

FRANKLIN, ASTON & FAIR, INC.
