INSTRUCTIONS

READ CAREFULLY AND COMPLY FULLY

For the purpose of this determination attach hereto a neat, accurate plat, map or sketch of this lease, section, block or lot locating thereon the proposed site for this location. Plat shall be drawn to a scale which will permit the facile observation of all pertinent data. Show distances of the proposed well from the two nearest lease and section lines, and from the nearest wells on the same lease completed in or drilling to the same reservoir. If the location requested is not in conformance with the applicable well-spacing rules, show all off-setting wells to the proposed well, and the names and addresses of all adjoining lease or property owners.

In event plat is filed for the purpose of designating the drilling and producing unit, or proration unit, on which the proposed well is to be drilled, the boundaries of such unit shall be shown, also the boundaries of all other such units attributed to other wells on the same lease completed in or drilling to the same reservoir. The acreage contained within each unit shall also be shown.

Do not confuse survey lines with lease lines. The sketch or plat should show your entire lease if possible. If it is not practical to show the entire lease and the plat shows only a section, block or lot out of your lease, you should clearly show that same is only a part of the lease.

Designate scale to which plat or sketch is drawn. Also designate northerly direction on the sketch or plat.

RE: Drilling Permit
T. 18 North, R. 3 East, G&SRBM
Section 36: SE $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$

Dear Mr. Bannister:

I wish to cancel the subject drilling permit which your office did accept on the subject lands. Due to a conflict of interest I will not be able to institute any drilling operations on these lands.

I further request that your office kindly refund the \$25.00 fee which was paid for this permit.

Thank you very much for your many considerations towards me in regards this area.

Very truly yours

William M. Wilson
