Permit 313

Gentlemen:

Enclosed please find Receipt 9412 for the amount of \$25.00 covering your permit to drill the captioned well.

As per your letter of April 27, 1965, we have used the application, plans, and bond originally submitted as part of Permit 308 to issue the new Permit 313.

We are advising Travelers Indemnity Company as to this change and advising them that their Bond 1186227 will now apply to the same well but under Permit 313.

Should you have any questions, please advise this office.

Yours very truly,

John Bannister  
Executive Secretary

Re: Bond 1186227

Willett 800 ft State well  
SW/4NW/4 324-T20N-R9E, Coconino County, Arizona  
Permit 313

Gentlemen:

You issued the captioned bond, in the amount of \$2,500, to comply with the bonding requirements of this Commission as to the captioned well.

Our permit to drill this well was originally issued January 28, 1965 under Permit 306. Inasmuch as the operator, Mr. George E. Willet, was unable to commence operations due to weather conditions within the ninety day period as required by our Rules and Regulations, it was necessary to expire Permit 306.

Mr. John K. Petty, on behalf of Mr. Willett, has secured a new permit for the same well at the same identical location. Permit 313 has now been issued for this purpose. Mr. Petty has advised us that the captioned bond will cover this well.

In the event that this change amounting to a change of permit number only does not satisfy your organization, will you please advise us at once. Otherwise this Commission considers your company bound under Bond 1186227 for Mr. Willett's operations on the captioned wellland under Permit 313.

Should you have any questions, would you please advise.

Yours very truly,

John Bannister  
Executive Secretary  
or

RE GEORGE E. WILLETT #1SDD Arizona State, #8219  
1537 FN & 1530 FW 1s Sec 24-T20N-R5E Permit # 306  
Coconino County, Arizona

Dear John:

It is wished to obtain a new permit in place of the above since its expiration date is April 28, 1965. Due to severe weather conditions it has not been reasonable to move a rig in to location and commence the project.

Since all the conditions and plans set forth in permit #306 are to be followed it is desired to use the same application for the new permit asked for.

A check for \$25 is attached to this letter.

Thanking you and the Commission for your splendid cooperation, I am

Yours truly

GEORGE E WILLETT

Re: Willett #1 State 8219 well  
SW/4NE/4, S24-T2GN-R53, Coconino County, Arizona  
Permit 306

Dear Mr. Willett:

This will acknowledge receipt of the Application to Drill captioned well which was approved January 28, 1965.

Mr. John Petty advised this office by letter date January 25, 1965 as to the unorthodox location of this well and explained that this location was necessary due to the structural and stratigraphic situation.

This letter advises that this location and the reason therefore are acceptable to this Commission.

Yours very truly,

John Bannister  
Executive Secretary

re: George E. Willett #1 SED Arizona State Sec 24-20-5, Coconino Co.

Dear John:

The above well is located 1537 feet from the north and 1230 feet from the west lines of section 24, this being an unorthodox location.

Mr. George E. Willett, the operator, owns leases all around this dedicated acreage (W2 NW4 sec 24).

The only reason this well is not on an orthodox location is because it is located by a coordination of Geological, Geophysical and Geochemical etc data.

Since it is believed this location is the most applicable to the structural and stratigraphic situation, it will be appreciated very much if you will give it approval. This location has cost much time and money and we have done our best to place it properly so as to penetrate a petroleum reservoir.

Yours truly

GEORGE E. WILLETT
