## WELL COMPLETION OR RECOMPLETION REPORT AND WELL LOG

DESIGNATE TYPE OF COMPLETION:

New Well  Work-Over  Deepen  Plug Back  Same Reservoir  Different Reservoir  Oil  Gas  Dry

DESCRIPTION OF WELL AND LEASE

Operator El Paso Natural Gas Company		Address Box 990, Farmington, New Mexico	
Federal, State or Indian Lease Number or name of lessor if fee lease USA Arizona 137 La Posa Strat B		Well Number 1	Field & Reservoir Wildcat (Stratigraph Test)
Location 643'S, 710'E		County Yuma	
Sec. TWP-Range or Block & Survey Sec. 10, T-7-N, R-19-W			
Date spudded 6-16-68	Date total depth reached 6-20-68	Date completed, ready to produce P & A	Elevation (DF, RKB, RT or Gr.) 840' GL
Elevation of casing hd. flange		feet	
Total depth 1400'	P.B.T.D. Surface	Single, dual or triple completion? Single	If this is a dual or triple completion, furnish separate report for each completion.
Producing interval (s) for this completion None		Rotary tools used (interval) 0 - 1400'	Cable tools used (interval)
Was this well directionally drilled? No	Was directional survey made? No	Was copy of directional survey filed?	Date filed
Type of electrical or other logs run (check logs filed with the commission) I-ES, GR-N, SLC, CDM			Date filed

Mr. E. S. Oberly telephoned the office this date and reiterated that there were no reports pertaining to cores on the #1A Federal La Posa and the #1B Federal La Posa. They are unable to furnish us with any reports as to the coring or drill stem tests on any of the three wells. He is making an attempt to get the report pertaining to the Butler Federal #1 that was turned to their mining division.

Dear Mr. Oberly:

Enclosed is our instruction sheet that we have furnished you previously concerning samples and cores. We remind you the captioned wells were drilled under permits issued by this Commission, and it is the concern of this Commission that all reports pertaining to these wells be furnished to us. The Executive Secretary requests that you come into full compliance with these regulations. We will find it distasteful to refer the matter to the Attorney General's office.

Yours truly,

Mr. James A. Lambert  
Oil and Gas Conservation Commission  
State of Arizona  
Room 202, 1624 West Adams  
Phoenix, Arizona - 85007

Dear Sir:

In answer to your letter of December 1<sup>0</sup>, I submit the following:

No cores were analyzed in a lab from the three wells in question. The drill stem test indicated on the Federal La Posa No. 1-A #459 reports was a failure and no information was derived from it.

As of this date, you have all of the information in your files that El Paso Natural Gas Company has on these wells. The core on the Butler Federal No. 1 was turned over to our Mining Division, but their look at the cores from the mineral standpoint should be of no concern to the state office of the Oil and Gas Commission.

Yours very truly,

E. S. Oberly,  
Regional Petroleum Engineer

Dear Mr. Oberly:

Daily drilling reports indicate that coring was accomplished on 4-16, 4-18, and 4-20 on the El Paso #1 Federal Butler. Please furnish this office with the core analysis resulting from this coring action.

Our records indicate that drill stem tests were done on the El Paso #1A Federal La Posa on 5-23 and 6-12. They also show that core analysis were taken on 5-21 at 2400' and on 6-7 at 2750'. Will you please submit these reports.

Page 2  
December 10, 1968  
Mr. E. S. Oberly

We also need the reports on the El Paso #1B Federal La Posa Strat concerning core analysis that were taken at 880' on 6-18, at 1070' on 6-19, and at 1230' on 6-20.

We would appreciate receiving all of the above reports at your earliest convenience.

Yours truly,

James A. Lambert  
Administrative Assistant
