Dear Mr. Allen:

In regard to your letter of July 5, 1973, concerning above referred to well, I personally apologize for the delay in plugging said well; however, Eastern has been engaged in an extensive Oil and Gas Exploration Program in northwestern Washington and due to this endeavor, we have been short-handed and lacking adequate equipment to perform said plugging operations.

I fully realize that Easterns' endeavors, no matter where, are no excuse for lack of attention to their drilling obligations within the state of Arizona. I have instructed Mr. Jeff Clark, our Field Supervisor in the Farmington area to perform said plugging operations within the next ten (10) days.

Sincerely,

Robert A. Fullop
Vice President

Dear Mr. Fullop:

Your letter of March 14, 1973 concerning the final plugging of the above referenced well gives us the impression that as quickly as weather permitted you would complete the plugging on this well and submit a plugging report, Form 10.

If this well has been plugged, please submit Form 10; if not plugged, advise us of your intentions.

Very truly yours,

W. E. Allen, Director

RE: Santa Fe Fee Surprise Creek
#1, Sec.29,19N,29E, Apache
County, Arizona, Permit #586

Dear Mr. Allen:

The above referred to well has not been plugged due to the shut down of Eastern Petroleum's operations at Navajo, Arizona and the inaccessibility of this location, due to weather and existing road conditions. The plugging report form (NO.10) will be sent to you upon completion of our plugging program. The only plugs that exist are those from 1987 - 1723 and 1035 - 885 with the only remaining plug being that in the surface pipe. No logs were run due to existing down hole trouble.

Any further information shall be furnished upon request.

Sincerely,

Robert A. Fullop
Vice President
