Dear Mr. Fullop:

We are returning for completion your Application for Permit to Drill or Re-Enter. This application is incomplete in so far as it fails to list the complete casing program. Furthermore, you did not include a copy of the certified plat or check in the amount of \$25.00 for the Drilling Permit. On your plat of this location, please outline the acreage dedicated to this well.

Please complete and return this form together with the other required information prior to spudding this well.

Very truly yours,

W. E. Allen, Director

Memo to file Eastern Petroleum Chuska Mountain Fuel
NW/SE Section 15-T35-29, Apache County

Memo from W. E. Allen, Director
Enforcement Section

Robert Fullop called this date concerning the location of the above referenced well. The exact location is 741' FNL and 2534" FEL. This is an unorthodox location. Mr. Fullop states that because of the rugged terrain in the quarter section, it is impossible to locate this well on an orthodox location. He requested permission to drill on the above site. Mr. Phil Mc Grath with U.S.G.S. and the Navajo Tribe had approved this unorthodox location.

In view of the facts stated by Mr. Fullop, I agreed to approve this location as it is presently located.
