Mr. W. E. Allen  
Oil & Gas Conservation Comm.  
State of Arizona  
8686 N. Central, Suite 106  
Phoenix, Arizona 85020

Dear Mr. Allen:

Enclosed are geophysical logs for drill holes St. Joe #8 (Permit 650) and St. Joe #9 (Permit 652). Our records indicate that logs on holes 8 and 9 were mailed to your office on August 19, 1975 (see attached letter), however, we are pleased to provide duplicates.

Rotary drill cuttings on all of our drill holes have been packaged for you and we are in the process of taking representative chip samples from the cored intervals as you suggested. We also hope to provide you with quarter cuts of sawed core intervals upon completion of the project.

Mr. Longshore will deliver to you personally in Phoenix, the latter part of this week, all cuttings, completion reports and applications to plug requested in your memorandum dated March 31, 1976. In addition to the information you requested, we will also provide all available data on drill hole St. Joe #7.

We have appreciated your excellent cooperation in the past and regret if our delay in providing you with the drill hole cuttings may have caused you any inconvenience.

Yours very truly,

*Wayne K. Wallace*
