Permit to Drill

FORM NO. 27

SAMPLES ARE REQUIRED

General Notes

1. Exterior and interior section lines shown as approximate were not surveyed in the field.
2. The well location shown herein was set of distances and bearings perpendicular to the North line and mid-section line.
3. Existing topography and elevations were not part of the survey. The elevation shown at the well site was taken from the "Hetch Hetchy" Quadrangle Map, 1965.
4. The location of roads shown herein are approximate.
5. All corners set on this plat are shown as 1/4 1/4 corners in addition to other required information shown on the plat.
6. All corners shown on this plat were included in closed traverses. Accordingly, in statement about relative survey accuracy, the word "Distances" were measured by EDM Equipment, which were measured with 1 sigma, 1 mm/1 km.

This is to certify that this plat was prepared from field data in actual survey made by me or other my representatives, and that the same are true and correct to the best of my knowledge and belief. This plat is a true and correct copy of the original as prepared and shown to the plat as shown in this survey.

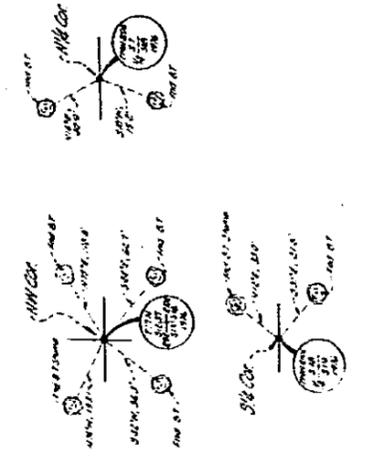

Statement should be determined by owner, attorney or other representative.

Re: Wichita Industries Federal #1-18

Dear Mr. Pearce:

Your recent application for a permit to drill the above-referred well failed to include the proposed total depth.

Also, the dedication is in error. You state the dedication to be the NE/4 NW/4. As near as I can reconcile a dedication of this type, it would be a 40-acre dedication. As you know, Arizona requires 80 acres to be dedicated to any well drilled for oil. With your permission, I will change this dedication to read the N/2 NW/4 or the E/2 NW/4, whichever you desire.

As soon as I have your reply the permit will be issued on this well.

Very truly yours,

William E. Allen
Director
Enforcement Section
