Re: Permit 708

Dear Mr. McDowell

We are in receipt of your request for cancellation of the bond on your An-Son State 1-23.

Before this can be done, we must receive a set of the well samples in our Phoenix office and a set must be sent to Arizona Bureau of Geology and Mineral Technology in Tucson as set forth in State Rule 119, C-4, page 11.

Also, the location has not been completely cleaned up. On my visit last week, it was found there were still three or four bags of chemicals, poly used to cover the chemicals, a small roll of wire line, and scrap lumber. As soon as these requirements have been satisfied, we will notify the bonding company to release the bond.

If Joe Faull submitted a sample description, we would appreciate a copy, since the driller's log submitted is very vague.
