If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

On March 9, 1982 the above well was abandoned and plugged. The fish was stuck at 1432ft. From the top of the fish (1000ft) up to 426ft was filled with 8.4 cubic feet of sand. From 426ft to surface was filled with 6 yards of cement. The surrounding area and road was ripped up and leveled and approved by BLM representative.

We herewith request the release and return of the \$5,000 cash bond.

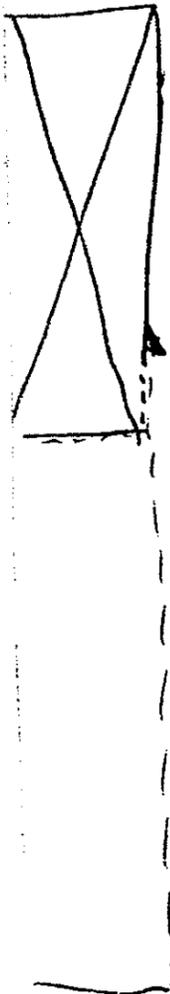

I hereby certify that the foregoing is true and correct.

Dear Mr. Atkinson:

We are trying to complete the files on subject well and would appreciate it very much if you could take the time to complete the enclosed Forms 4 and 10. These forms are required by the Commission.

Also, if you have a geological formation at total depth, we would appreciate receiving it.

Thank you kindly.

Dear Sirs:

We have inspected the site of the "Fort Pierce" Federal No. 35-1, located on oil and gas lease A-9774 in Section 35, T. 42 N., R. 11 W., GSRM, Mohave Co., Arizona and find it to be satisfactory as to rehabilitation. All stipulations have been complied with and we have no objection to releasing the compliance bond.

Sincerely,

JUL 10 1981  
O & G CONS. COMM.

July 7, 1981

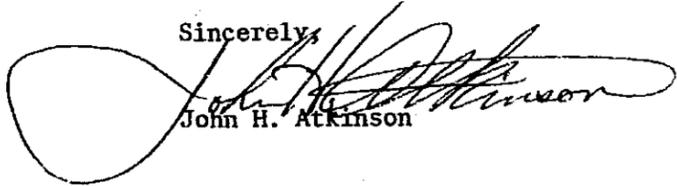

Oil & Gas Conservation Commission  
State of Arizona  
1645 W. Jefferson, Suite 420  
Phoenix, Arizona 85007

Dear Mr A. K. Doss:

Mr. Allin asked me to write the Arizona Oil & Gas Conservation Commission to keep you informed as to our progress on the Arizona stripwell. The drilling has progressed very slow and with many problems. Everytime we turn around the drilling equipment breaks down and we are delayed for two, three or four days. Presently we are at a depth of 1432 ft. and the bit is stuck and the rig derrick is bent and broken. We lost circulation June 25, 1981 and have been drilling blind since that time. The rig owner has ordered a crane to come and lift the derrick off for repairs. I have discussed with my engineer the idea of casing the hole to 1400 ft. with a 7 ft. casing. We would then drill the rest with a 6 1/4 inch bit and hope that we do not lose circulation again.

I discussed with Mr. Allin this is a tight hole. We do not want information to be given to others who may call you. I would appreciate your continued support in this matter.

Sincerely,

  
John H. Atkinson
