The following information must be submitted to, and approved by the Department prior to initiating exploration/drilling activities on State land. The plan is approved for a period of one year beginning on the date approved. Any change in the below described operations must first be approved by the Department.

Plan evaluation and approval may require 30 days.

1) LAND DESCRIPTION AND MAP

Attach as Exhibit A to this Plan a topographic map of the referenced property.

County Pinal Township 9-S Range 12-E Section(s) 2

2) PERIOD OF OPERATION

The operation is proposed to begin on Feb. 1986 and end on Feb. 1987. If operations are proposed to exceed one year, an addendum to this plan must be filed prior to the plan expiration date.

3) ACCESS

Show on Exhibit A existing and proposed routes. Describe in detail the extent of all improved or newly constructed access. Note any locked gates. We had to clean up a small area 8' wide and 460' long. This was all done by hand.

4) VEHICLES AND EQUIPMENT

List by type and size all vehicles and equipment which will be used in connection with the operation. There will be pickups and one 16 T drill rig. This is all the equipment to be used.

5) SCOPE AND TYPE OF OPERATION

Describe the type and extent of the operation to be performed. Include the estimated area of disturbance and provide detailed information for any earth moving or site clearance operations.

Estimated area of disturbance: \_\_\_\_\_

40' diameter area in which the drill rig will be set and a 20' ditch 1' deep and a small catch pond with a small berm. We will use a small Ford tractor with a bucket to make the berm. There will be very little earth disturbance at the site of the operation.

6) AFFECTED LAND

Indicate to the nearest 300 feet the location of the proposed drill site. (Exhibit A). If necessary complete Exhibit B or provide coordinate description (topographic grid or distance from section corner).

Coordinate description: Submit as an attachment.

7) DRILLING

For all drilling operations indicate the type of drilling operation, drilling medium (air, water e.g.), hole diameter, and proposed total depth.  
We will drill 200' 8" air and then 700' 6" air

Hole I.D.	Total Depth	Hole I.D.	Total Depth	Hole I.D.	Total Depth
8"	200'	6"	700'		

Provide plugging program which has been approved by OGCC.  
Indicate the marsh funnel if applicable.  
The plugging of the well will be with cement and heavy mud according to rules and regulations set by the State of Arizona Oil and Gas rule #202

8) WATER USE

If the use of water is required, describe the location and quantity to be used. No water to be used.

9) RECLAMATION

Describe actions taken to minimize environmental impacts and state plans for reclamation of disturbed areas. If applicable include measures for erosion control, recontouring, seed bed preparation, method of seeding, seed species, etc. Unless otherwise approved reclamation is to be completed within the approved plan period of one year.

Since the area is small and very little disturbance is going to take place, most of the area will be back to its natural state. The small pond will be filled and the berm leveled again.

10) ANTIQUITIES AND NATIVE PLANTS

If required, the applicant agrees to obtain archaeological clearance prior to the following surface disturbance:

- A. O&G Lease or S.L.U.P. : All land surface affected by exploration activities including access roads.
- B. O&G Lease: All acreage under application. The applicant will be directly contacted by the Arizona State Museum.

Archaeological clearance must be obtained through the Arizona State Museum.

10) ANTIQUITIES AND NATIVE PLANTS (cont.)

If the destruction or removal of protected plants is necessary to enjoy the privileges of a permit or lease, the applicant agrees to obtain written permission from the Arizona Commission of Agriculture and Horticulture. The applicant also agrees to purchase said plants from the Arizona State Land Department. Native plants are as described under the Arizona Native Plant Law. It will be handles as per conversation with Mike Rice on February 19, 1986

Dear Rudy:

I conducted a field inspection of the Apollo Oil Company wellsite on T.9S, R.12E, Section 2 on April 9. I met Mr. O.T. Gay at the site and we did a walk through. The site looks good and I agree with the removal of the marker since the depth of the drilling was shallow and no where near target depth. I am satisfied with the site as it now stands.
