INTRODUCTION AND ACKNOWLEDGMENTS

Supplementing Arizona Bureau of Mines Bulletin No. 146, which was published in 1939, this bulletin presents a list and index of literature pertaining to the geology and mineral resources of Arizona from June, 1939, through 1952. Most of its citations for the years 1939-1950 were compiled from the bibliographies of North American geology published as Bulletins 937, 938, 949, 952, 958, 968, 977, 985 of the U.S. Geological Survey. In addition, numerous serials have been examined.

Although this bibliography is intended to cover the literature, regardless of the merits of the various articles, many references have doubtless been overlooked. It is hoped that omissions will be brought to the attention of the Arizona Bureau of Mines.

EXPLANATIONS

The works of each author are listed chronologically. Each reference is headed by a year-index figure in boldfaced type. In the index these figures follow the author’s name.

The principal uncommon abbreviations are as follows:

Adv. Advance
Anon. Anonymous
Antiqu. Antiquarian
App. Appendix
Bur. Bureau
Cir. Circular
Coll. College, Collections
Contr. Contributions
Eng. Engineering, Engineers
Ex. Executive
H. House
Inf. Information
Int. International
Inst. Institute
Met. Metallurgy
Min. Mining
Mineral. Mineralogist
Mus. Museum
Nat. National, Natural
Proc. Proceedings
Rev. Review
S. Senate
Seism. Seismological
Smiths. Smithsonian
Soc. Society
Trans. Transactions
