Arizona Geological Survey Open-File Report 12-24

October 2012

Curating and documenting this collection was supported by the State of Arizona and the U.S. Geological Survey National Geological and Geophysical Data Preservation Program Grant #G11AP20180.

The views and conclusions contained in this document are those of the authors and should not be interpreted as representing the opinions or policies of the U.S. Government. Mention of trade names or commercial products does not constitute their endorsement by the U.S. Government.

**Introduction.** In January 2011, the Arizona Department of Mines and Mineral Resources (ADMMR) was closed due to a lack of operating funds. Subsequently, Governor Jan Brewer signed into law a consolidation of ADMMR with the Arizona Geological Survey (AZGS), effective July 1, 2011. As part of this merger, AZGS took custody of all ADMMR files and assets. Governor Brewer's office requested AZGS inventory, catalog, and scan all ADMMR records and files to ensure their preservation and to improve accessibility to them by industry, government, and the public.

At the Governor's request, a one-time appropriation of \$100,000 was approved for AZGS in fiscal year 2012 (FY12) to digitize and preserve the ADMMR files. AZGS received an additional \$41,495 from the USGS National Geological and Geophysical Data Preservation Program for FY12.

Beginning in July 2011, AZGS undertook to inventory and catalog the analog files held by ADMMR, as the first step in what is expected to be a multi-year program to create a digital archive with complete metadata for all materials. Further, we plan to integrate the ADMMR data repository into a statewide system linked to the USGS National Digital Catalog and the USGS-AASG Geoscience Information Network (USGIN).

By August 2012, we completed collections level inventories of all materials in the ADMMR archives: 13,500 folders of mining records from 22 collections; approximately 10,000 maps in the ADMMR map collection; and 7,400 photographs from 6 collections. Collection inventories are available as free AZGS Open-File Reports at the AZGS Document Repository ([repository.azgs.az.gov](http://repository.azgs.az.gov)).

AZGS created a record for each item according to the ISO 19115 schema. This includes geographic bounding boxes, descriptions, thematic keywords, spatial keywords, temporal keywords and preservation metadata, which will be compatible with the USGIN catalog and the National Digital Catalog Metadata Profile. Once digitized, files will be accessible for download through the AZGS Document Repository and the USGS National Digital Catalog.

Title

Grover Heinrichs mining collection

Repository

Arizona Geological Survey

Creator

Heinrichs, Grover

Date Min      Date Max

1907            1986

Type            Size

Collection      40 linear feet

Description

Grover Heinrichs was born in Pittsburgh, Pennsylvania, in 1925. As a child, he moved with his family through the western United States, the Philippines and South Africa. He was the Vice President of Heinrichs GEOEXploration, located in Tucson, Arizona, where his brother, Walter Heinrichs, Jr., was President. During his career as a geologist, he also worked or consulted for a number of other companies including the USGS, Phelps Dodge, United Technologies and Essex International. He was the Vice President of La Paz Mining Inc. from 1984 until the early '90s. He was a member of several professional organizations including the Arizona Geological Society, the Mining Club of the Southwest and the Society for Mining, Metallurgy and Exploration.

This collection of files contains over 1,400 folders containing economic geology reports, maps, photos, correspondence, drill logs and other related materials. The focus of much of the information is on the western United States, particularly Arizona, but the collection also includes files on mining activity throughout the United States, foreign countries, and 82 mineral commodities. The collection is arranged by U.S. States, foreign countries, commodity files and lastly miscellaneous reports. A second donation arrived in 2002 which added materials for about two hundred existing folders and approximately two hundred new folders. These have been interfiled with the original materials, indicated by an additional character to the Resource ID.

Subject

Mines and mineral resources; Geology, Economic

Acquisition

Grover Heinrichs donated the collection to Arizona Department of Mines and Mineral Resources in November, 1994. Several more boxes were added to the collection in 2002. The Arizona Geological Survey received it from ADMMR in 2011 when it took custody of the agency's records.
