

Introduction

The **Arizona Geological Survey** was established July 1, 1988. Its predecessors were the Arizona Bureau of Geology and Mineral Technology (1977-1988); the Arizona Bureau of Mines (1915-1977; the University of Arizona "Bureau of Mines," also known as the "University School of Mines Testing Laboratories" and the "Bureau of Mines of the Arizona School of Mines" (1893-1915); and the Office of the Territorial Geologist (1881-1912). This report contains a list of all publications of the Arizona Geological Survey through 1995. For a listing of publications by the predecessors see Arizona Geological Survey Open-File Report 89-6.

Explanatory notes within the title portion of the citation are enclosed in brackets and italicized; these are editorial additions, not part of the actual title.
